## None of These Diseases

by Bob Glaze

In 1963, Fleming H. Revell Company released the book *None of These Diseases*, written by S. I. McMillen, M.D., that stated that modern science was 4,000 years behind the Bible. By 1975, the book was in its sixteenth printing and sold for \$1.50. The book contained 26 chapters covering various ailments that could be prevented instead of being treated with modern medicine and psychology. It was based on God's advice in Exodus 15:26: "And said, If thou wilt diligently hearken to the voice of the Lord thy God, and wilt do that which is right in his sight, and wilt give ear to his commandments, and keep all his statutes, I will put none of these disease upon thee, which I have brought upon the Egyptians; for I am the Lord that healeth thee." God is stating that the plagues that were cast upon Egypt remain a viable option depending upon their adherence to His commandments.

The reason that the Egyptians were experiencing the wrath of God was because of their refusal to acknowledge that the God of the Hebrews was the only God and was the author of the diseases that were plaguing them. Those promises are just as valid today as they were prior to the exodus from Egypt. McMillen states in his book that "God guaranteed a freedom from disease that modern medicine cannot duplicate." We are thankful for our doctors, nurses, and others that treat us, but they treat the disease which is only a symptom of the real cause. We are responsible for our own situation. If we are rebellious and will not adhere to God's instructions, then we must expect that He will remove His hand of protection and allow the sickness of this present world to move in on us.

It is reasonable to believe that America as a whole is rebellious, and God will remedy the situation. The entire population of Egypt, with the exception of God's people, the Hebrews, had to endure the plagues because of one person, the Pharaoh. It is also reasonable to believe that a person or group of persons that prevent or impede others from serving God in this day and age will experience the wrath of God in

the form of disease and plagues without remedy unless they repent. This is not to say that everyone that is experiencing health issues is in that condition because of sin. There are those "special people" that are chosen by God to endure sickness because they are to be a witness of faith and encouragement to others around them.

As we see the day of the Rapture approaching, the world will see an increase of plagues. "And as he sat upon the mount of Olives, the disciples came unto him privately, saying, Tell us, when shall these things be? and what shall be the sign of thy coming, and of the end of the world? And Jesus answered and said unto them, Take heed that no man deceive you. For many shall come in my name, saying, I am Christ; and shall deceive many. And ye shall hear of wars and rumours of wars: see that ye be not troubled: for all these things must come to pass, but the end is not yet. For nation shall rise against nation, and kingdom against kingdom: and there shall be famines, and pestilences, and earthquakes, in divers places. All these are the beginning of sorrows" (Matthew 24: 3-8).

Since Christ walked this earth, the world has seen many pestilences, and they have all killed millions. The major plagues listed at [www.mphonline.org](http://www.mphonline.org) are:

- The Antoine Plague (A.D. 165) caused by either measles or smallpox—killed a total of 5 million
- The Plague of Justinian (A.D. 541-542)—killed 25 million
- The Black Plague (1346-1353)—killed 75-200 million
- The Third Cholera Pandemic (1852-1860)—killed 1 million
- The Flu Pandemic (1889-1890)—killed 1 million
- The Sixth Cholera Pandemic (1910-1911)—killed over 800,000
- The Spanish Flu Pandemic (1918)—killed 20-50 million
- The Asian Flu (1956-1958)—killed 2 million
- The Flu Pandemic (1968)—killed 1 million
- The HIV/AIDS Pandemic (2005-2012)—killed 36 million

The science and medical community have spent billions of dollars trying to find a cure for these maladies, but seem to never completely learn the source. Maybe, because God is the source. The most current virus has been dubbed *Candida auris*. The *New York Times* published an article recently entitled “Deadly germs, Lost cures: A Mysterious Infection, Spanning the Globe in a Climate of Secrecy.” It states that this new germ is as deadly as it is mysterious.

Last May, an elderly man was admitted to the Brooklyn branch of Mount Sinai Hospital for abdominal surgery. A blood test revealed that he was infected with a newly discovered germ as deadly as it was mysterious.

Doctors swiftly isolated him in the intensive care unit. The germ, a fungus called *Candida auris*, preys on people with weakened immune systems, and it is quietly spreading across the globe. Over the last five years, it has hit a neonatal unit in Venezuela, swept through a hospital in Spain, forced a prestigious British medical center to shut down its intensive care unit, and taken root in India, Pakistan, and South Africa.

That man died after 90 days in the hospital but the germ lived on. The germ is so invasive that the hospital had to rip out the ceiling and floor tiles to get rid of it. “Everything was positive — the walls, the bed, the doors, the curtains, the phones, the sink, the whiteboard, the poles, the pump,” said Dr. Scott Lorin, the hospital’s president. “The mattress, the bed rails, the canister holes, the window shades, the ceiling, everything in the room was positive.”

—www.msn.com

The article also points out that like bacteria, fungi are evolving to survive modern medicines. Most of the blame is on the over-prescribed antibiotics and antifungals. Humans are also infected by all of the antibiotics and antifungals in farm animals and plants. Under agreement with the states, the CDC is not allowed to name hospitals that have an outbreak, putting the public at more risk. Almost one-half of the patients with *C. auris* die within the first 90 days. The CDC has no idea where it started or the source.

For those that thought most childhood diseases were eradicated, guess again. Measles and mumps are on the rise again. In New York City, Mayor de Blasio has declared a health emergency because of an outbreak of measles. In Texas, nearly 200 immigrants have the mumps. ICE has reported 27 cases at their facilities in Texas.

However, these diseases pale in comparison to the real danger to mankind. At present, that is reserved for the complacency of the church. The church today is a far cry from a few decades ago. Modern churches have become a haven for cowards and hypocrites who refuse to preach, teach, or follow the full council of God. In February of this year, Fairview

Baptist Church of Edmond, Oklahoma, hosted a “God’s Voice Conference.” No other church volunteered to host the conference for both religious and political reasons. The conference is a biblical response to the queering of the church. Some refused because they accepted the queering of the church, or as one pastor said, there are some democrats in this church and I don’t want to make them mad. This conference was a call to battle in order to stop the LGBTQ+ assault on the church.

Even the murder of babies through abortion seems to be taboo in the modern church. Christians have taken up the mantra of “proud to be pro-life,” which only means you follow the law concerning the taking of life. Try to preach abolition of murdering babies and hear the outcry of women’s rights. Now in New York an aborted baby that has survived the process of abortion can be killed while it is trying to hang on to life.

However, the *coup de grace* for the United States may well be the disease of anti-Semitism. Anti-Semitism is anti-God, anti-Christian, and anti-American, and is on the rise right here in “the land of the free and home of the brave.” The hatred of Jews and of Israel has exponentially risen since the influx of Muslims entering America with one purpose, adding the United States to the caliphate and taking it to Hell with them. Now, clusters of them have been able to elect themselves representatives to further their cause.

The first Muslim to be elected to Congress was Keith Ellison from Minnesota’s 5th Congressional District in 2007. In 2019 he became Minnesota’s attorney general. He served as the deputy chair for the Democratic National Committee. He also placed his hand on a Q’uran to be sworn in.

In the November 2018 congressional elections, two women won seats in the House. One of them is Ilhan Abdi-Omar, a native-born Somali. Omar, who was elected to Minnesota’s 5th District (once occupied by Keith Ellison) is a rabid anti-Semite. Her haunting statement concerning 9/11 came straight from her black heart—“Some people did something”—disavowing the attack was by Muslims.

The Muslim Democratic representative from Detroit, Michigan, was sworn in the same day. She, along with Alexandria Ocasio-Cortez, are members of the Democratic Socialists of America. She defended Omar’s comment on 9/11.

If the good people of America don’t begin to push back against the cause of these diseases, it will collapse into a heap of rubbish ready to be set on fire by a spark from Hell. If our Congress and other leaders of this Christian nation don’t develop some backbone and do their job, it won’t be a Christian nation for long. If our churches don’t return to the Bible and cast out the filthy rags of homosexuality, abortion, and acceptance of cults such as Islam, it will become an embarrassment to Jesus Christ. *Even so, come quickly Lord Jesus.*

# Toxic Liberalism and Poison Politics

by Pastor Larry Spargimino, Ph.D.

“... for their folly shall be manifest to all ...” (2 Timothy 3:9).

While liberals, leftists, and their political party, the Democrats, speak about being progressive, fair, and open-minded, a perusal of recent events proves it’s a case of toxic liberalism and poison politics.

The Left has repeatedly shown itself to be savage and violent, and anything but open-minded. Physical violence, sweeping and destructive reforms shoved down our throats by draconian legislation, mass protests, insults and intimidation, are all in its arsenal for pushing through change. Maxine Waters, the scowling shadow demon of California Democrats, has urged people to follow and harass Trump supporters, wherever they are, “and you tell them that they are not welcome, anymore, anywhere!”

## When Leftists Get Into Office Freedom Suffers

Bill Whatcott has been fined by a Canadian tribunal \$55,000 for the “crime” of “misgendering.” He called a biological male, who decided to identify as female, a male. John Carpay, president of the Justice Center for Constitutional Freedom, who defended Whatcott, said, “The Supreme Court of Canada has long held that freedom of expression is the lifeblood of democracy.” Obviously, when it crosses the lines created by transgender activism, freedom dies. Carpay added, “Society is full of people with diverse views, and the tribunals’ decision undermines the foundational principles of the free society and jeopardizes the health of Canada’s democracy.”

Whatcott’s so-called “crime” is still considered legal in the U.S. But for how long? We are already seeing non-governmental censorship regarding gay-related issues on Twitter, Facebook, and YouTube. Facebook and Instagram are blocking pro-life posts by Dr. Alveda King, who is trying to prevent more “black genocide” through the new *Roe v. Wade* film.

## Violence At Abortion Clinics

An 85-year-old pro-lifer was beaten while he was praying outside of a Planned Parenthood clinic in San Francisco. “Old man, stay on the ground,” the thug said. Investigators say the suspect snatched a banner the pro-lifer was holding and tried to run with it. The man used his cane and tried to stop the assailant.

“I tried to keep him from taking it and that was it,” the victim told NBC News. “Then he knocked me down and

kicked me.” The attack was captured on video.

The victim is a member of 40 Days For Life, a pro-life advocacy group that conducts silent prayer demonstrations outside Planned Parenthood clinics. This was the third time the suspect has harassed and bullied pro-lifers at the San Francisco clinic. The victim was treated for minor injuries.

There are other cases of pro-lifers being attacked. In fact, anyone associated with conservative values is a target, especially those who wear the red MAGA—Make America Great Again—hat. A 74-year-old man in Palo Alto, California, experienced ridicule and mockery from Rebecca Parker Mankey, who saw the man’s MAGA hat and shouted out, “Hey everybody! Come over here! Let’s get this guy! He’s a hater! I’m calling him out! He hates brown people. He’s a Nazi!” On Twitter she wrote, “I’m going to go to his house, march up and down carrying a sign that says he hates black people. ...”

## Dr. Chuck McIlhenny

Dr. Chuck McIlhenny pastored First Orthodox Presbyterian Church for several years. In 1978 he wrote a book in which he recounted how he was threatened and his church and home firebombed by gay activists following a lawsuit he won regarding the church’s right to dismiss its organist who was gay. McIlhenny’s home was firebombed while his family was sleeping inside. No one was ever prosecuted for the arson attack. The title of Dr. McIlhenny’s 1978 book recounting his experiences with gay militancy is titled *When The Wicked Seize A City*.

In 1978, McIlhenny helped defeat a domestic partnership law that would have treated two homosexuals as a family. For three years, the McIlhenny household received literally thousands of threatening and harassing phone calls 24 hours a day. Some of the callers threatened to sodomize and kill Dr. McIlhenny’s three young daughters. In 1990, vandalism repeatedly occurred to his church and home. Nasty graffiti was written on the walls. In addition, the church’s windows were broken on a regular basis. The windows were permanently boarded up by congregational vote.

The tragic, but revealing, documentary film, *A Nation Adrift*, chronicles the outrageous events that took place during the Hamilton Square Baptist Church riot in 1992. An angry group of homosexuals and lesbians, who objected to the speaker for that service, vandalized church property, assaulted church members, terrorized congregants, screamed

profanity, threw rocks, harassed and frightened children, and disrupted the service. Rioters pounded on church doors and attempted to break through. When the rioters saw church children standing in the lobby, they shouted, “We want your children. Give us your children!”

Lot experienced some of the same lustful aggressiveness in Genesis 19. Even after these homosexuals were struck blind by the angel, “they wearied themselves to find the door” (vs. 11). Rather than fleeing from a devastating angelic encounter, these crazed men were still looking to sodomize the angels!

Interestingly, those of us who say that militant homosexual activism is a danger to liberty are accused of suffering from “homophobia,” and “transphobia.” These labels are misleading. A “phobia” is described as an “unreasonable,” “irrational” fear of something. There is nothing unreasonable or irrational in the real danger that we face. Homosexual activism is seeking to radically change America. I have given several examples of it. I could give many more.

### News Without Reference To Facts, Logic Or Proof

This militant gay takeover has been following a well-orchestrated, carefully designed plan for years. In the 1989 book, *After The Ball*, which presents the battle plan for the takeover of America, authors Kirk and Madsen talk about converting the public to accept homosexuality. “We mean ... conversion of the average American’s emotions, mind, and will, through a planned psychological attack, in the form of propaganda fed to the nation via the media. ... Our effect is achieved *without reference to facts, logic or proof.*”

Indeed a lot of the anti-Trump news is fake because it is reported “*without reference to facts, logic or proof.*” When referring to the savagery of MS-13 killers, the president said they are “animals.”

Nancy Pelosi gave the president’s statement a spin to make him look like a “hater of brown people.” Pelosi said, “When the President of the United States says about undocumented immigrants, ‘These aren’t people; these are animals,’ you have to wonder—Does he not believe in the spark of divinity—the dignity and worth of every person?” (Of course, “the dignity and worth of every person” means she should be pro-life, which she is not.)

Others in the Democrat-backed media ran with this distortion and wrote, “Asylum seekers ‘aren’t people.’ They are ‘animals.’ This is particularly frightening language coming out of a person vested with the power of the president’s office.” CNN contributed its own toxic news and posted a photo of a little boy seeking asylum in the United States and wrote, “His name is William. Trump calls him an animal.”

### The Coming Plague: “Leather Awareness” Weekend In Cleveland

Amy Contrada, writing for *American Thinker* (5/18/18), warns her readers before they read her article titled “What Has Sexual Orientation Non-Discrimination Wrought?” At the top of the page we read, “CAUTION: This article contains extremely graphic and disturbing content. Read at your own risk, and keep out of reach of children.”

The last weekend in April is a CLAW weekend—Cleveland Leather Awareness Weekend. In the last decade, there has been an explosion of “gay” BDSM (bondage, domination, sadism and masochism) festivals (nice way of saying deviant sex “orgies”). These are activities that leave blood and other disease-laden body fluids. There are several “workshops” planned which I will not even attempt to describe. Linda Harvey, writing for WND, states: “It is so thoroughly disgusting that it’s difficult to understand how any civilized city can host this. How can respectable hotels accommodate such activities?” The hotels involved this year are the Cleveland Westin, Cleveland Marriott, Aloft, and Hampton Inn.

BDSM research reveals that BDSM participants have a high rate of mental disorders (25% have attempted suicide; about 40% suffer from severe anxiety and depression), twice the incidence of Hepatitis C, and ten times the incidence of HIV/AIDS as the general population. Believe it or not, major corporations are knowingly allowing their hotels to become public health hazards—both for the event participants and the innocent guests who follow. These hotels will never really be “safe” again. After the orgies are over, you may attend a corporate luncheon in the same room. Travelers beware. The Cleveland Department of Health is evidently okay with this.

Despite the dismal news from certain quarters, and the refusal of frozen-chosen believers whose theology leads them to believe that all of this is inevitable, God’s people are at work. Even more importantly, God is at work.

We always need to fall back on that great truth articulated by the prophet Jahaziel, “Be not afraid nor dismayed by reason of this great multitude; for the battle is not yours, but God’s” (2 Chron. 20:15).
